

Michelle Hatzis, PhD

Michelle Hatzis, is the global food, health and wellness program manager at Google. She is a licensed clinical psychologist with 17 years of extensive experience in behavioral medicine and behavioral economics as applied in work-site wellness settings. Michelle's focus and passion is to help organizations design, implement and evaluate the impact of programs/initiatives that support employees and their families to be at their best today, tomorrow, and for many years to come. Program focus areas include: Eating Well, Moving More, Optimizing Stress, Sleep, Mind-Body Medicine and Resiliency. As the Google Global Food Program's health and wellness manager, Michelle designs and manages Eating Well and Lifestyles programs and initiatives. She co-founded and manages the Google Innovation Lab for Food Experiences which is a global collaborative network for leading thinkers and doers in the food space that apply their knowledge and passion towards imagining and shaping the future of corporate food with the integration of technology. Prior to joining Google, Michelle spent 15 years with Kaiser Permanente in diverse roles both in direct clinical care and corporate wellness. During her tenure, several of the programs she helped design and manage were awarded the Best Employers for Healthy Lifestyles Award from the National Business Group on Health. Michelle holds a BS in psychology (Tulane University) and a MA and PhD in clinical psychology (California School of Professional Psychology).
