

Shelly Wolff, M.S., M.B.A.

**Shelly Wolff**, M.S., M.B.A., Independent Consultant, is a global strategist, executive advisor and consultant with a demonstrated history of working with a wide range of organizations advancing creative solutions with measurable impact to advance the health and wellbeing of organizations, individuals, and communities. She is skilled in Global Health, Well-being and Performance, Research Design, Healthcare Management, Disability Management, Population Health, and Health Insurance.

During her 16 years with Willis Towers Watson (WTW), she lead multiple global health and productivity projects, engagement strategies and was a regular contributor to WTW published research on global and domestic health and well-being strategies, programs and impacts. She is a frequent speaker and contributor for national initiatives that promote the health of organizations, workforce and communities.

Prior to joining WTW, Shelly worked at General Electric where she was responsible for leading companywide cross functional projects which became a cornerstone in GE's absence and worker health programs. She launched the design and implementation of EMPAC, Employer Measures of Productivity, Absence and Quality, a standard set of metrics to benchmark absence, disability and health information that has served as a national standard for insurance companies, employers and brokers. Shelly brings 30+ years of experience having worked in the insurance industry prior to her work at GE.

She is a member of HERO's Advisory Council, and past board member of HERO, and American Heart Association, Workplace Health Steering Committee. She has been recognized by multiple organizations for her contribution to the industry to include the Bill Whitmore Leadership award in 2018. She is an active volunteer member of Medical Reserve Corp, which supports community based public health initiatives to include local food pantries, seasonal vaccination programs, and disaster recovery efforts.

She holds an MBA from the University of St. Thomas, Minneapolis, MN and a master's degree in Vocational Rehabilitation Counseling from the University of Minnesota.
